

You might think massage parlors that offer sensual or erotic massage will look obviously seedy and easy to spot, this is not always the case.

Therefore, if you're trying a new clinic or spa, it's a good idea to call first and ask these questions:

- Do you offer therapeutic massage?
- Is the massage therapist certified or licensed?
- Do you require a health questionnaire of your clients?

At i spa, all of our practitioners are licensed, accredited professionals who will display the highest level of professionalism during your appointments.
